PROFESSIONAL PROFILE — BOATS FIRST

Offshore cook, galley steward and deckhand. Twenty-five years feeding people at volume. The skills that transfer to a boat are volume, seafood, long hours, cold and hygiene. Galley is the main job. Deck I can do. I am a cook — not a rigger, not a roustabout. Norwegian coastal galley work in Molde, 2014–2016. I own a 36.6 ft Dutch steel sailboat, Kees. No seasickness. Comfortable with cold, wet work and long periods at sea.

Available now, offshore only: crab boats, whale boats, fishing boats, wind-farm vessels, oil and gas rigs, PSVs, tankers, supply ships, Holland and North Sea vessels. Immediate start in Norway, the Netherlands and the North Sea.

SEA-RELEVANT EXPERIENCE

Past kitchen years are listed only by what a vessel needs. No land roles.

- **Volume** — continuous production for a full watch. Back-to-back services, large crew feeding, no gaps between sittings. Earlier banquet work reached 1,000 covers on a single service; listed here only as proof of volume.
- **Seafood** — fish handling, butchery, specialised fish dishes, Japanese and Asian seafood technique. Directly useful on crab boats, fishing boats and whale boats.
- **Long hours** — early starts, late finishes, physical work, short nights, shifts of about 14 hours. Used to a confined galley and a moving deck.
- **Cold** — Norwegian coastal winters in Molde, own steel sailboat, comfortable working wet and cold for long periods.
- **Hygiene** — Food Hygiene Level 3 HACCP, temperature control, stock rotation, allergen control, MLC 2006 galley standard.
- **Norwegian coast, Molde 2014–2016** — high-volume seafood and Asian production in a Norwegian working environment. D-number held.
- **Own 36.6 ft Dutch steel sailboat Kees** — time at sea, practical deck work, no seasickness.
